PART II -- RELEASE INFORMATION

Please provide the following information for EACH release at the site. If additional space is needed to answer any of the following questions, attach additional pages, as necessary.

(1) Source of this release (i.e., drums, tanks, spills, wastepiles etc.). Provide specific information on the suspected or known source of the release, including the source of this information:

(2) Release date(s) and any known information about the history of the release, including the physical state of the material released (solid, powder/ash, liquid/gas, sludge) and the quantity of material released (lbs, cubic yards, etc.):

(3) Describe those actions that have been taken to investigate, cleanup or otherwise remediate this release (e.g., removal of source of contamination; soil or water sampling performed; and monitoring wells installed and sampled).

(4) Access to the area affected by the release. Check the appropriate box:

- Inaccessible: A 24-hour surveillance system, or a completely closed barrier or fence to prevent entry.
- Limited Access: Less than 24-hour surveillance system, and/or a barrier or fence that is partially open.
- Unlimited Access: No surveillance, and no barrier or fence.

(5) If the site is inaccessible or has limited access, then describe site surveillance systems, fences, security personnel or other barriers that would restrict access to the release.

(6) For soil releases, indicate the type of material covering this release, by checking the appropriate box below.

- A permanent or otherwise maintained, essentially impenetrable non-earthen material such as concrete or asphalt
- An engineered and maintained earthen material or compacted fill or a high density synthetic material
- Loose earthen fill or native soil
- No cover
- Other

(7) Describe the type and thickness of the material covering the contaminated soil or wastes.

(8) Are any areas beyond the property boundaries affected by this release? Yes No

If yes, provide details on the potentially affected properties. Include address(es) and information about the nature and extent of the release of hazardous substance(s) on impacted surface soil, subsurface soil, groundwater, surface water, and indoor air.

PART III -- REQUIRED ATTACHMENTS

- SITE SUMMARY:** Attach a summary (no longer than one page) that gives a general description of the property, the areas affected by the release both within and beyond the property boundaries, and any actions taken to investigate, clean up or otherwise remediate the property. The summary shall include a description of the property boundaries of the site and adjacent properties as well as a detailed description of the nature and known or estimated extent of the area of contamination. Describe historic and current operational activities at the property and any additional relevant information concerning the nature of the release. In addition to the one page summary, other information concerning the property may also be attached.
- SCALED SITE MAP:** Attach a scaled site map that shows known or suspected sources as well as the locations of all samples collected at the site. The site map should include outlines of buildings as well as covered ground areas (e.g., parking lots or other paved areas). A legend should be provided to explain any symbols used on the map.
- U.S.G.S. TOPOGRAPHIC MAP:** Along with this form, you MUST submit a U.S.G.S. topographical map (1:24000) with the geographic center and boundaries of the site clearly marked. U.S.G.S. topographic maps are available for purchase at the Maryland Geological Survey at <http://www.mgs.md.gov/esic/fs/fs4.html> or at (410) 554-5505. Also, the U.S.G.S. topographic map can be printed from Terra Server USA website available at <http://terraserver-usa.com/>.
