MDE Case No. 10-0339-BA  
MDE Facility No. 3975**

Dear Ms. Herman:

Based on the data collected to date at the above referenced Site, as presented in the 3rd Quarter 2014 Progress Report, dated November 6, 2014, AEC requests a trial shutdown of the dual phase extraction remediation system in order to begin a rebound evaluation as outlined in the Revised Corrective Action Plan (CAP) Addendum, dated June 27, 2013.

AEC will prepare a Rebound Evaluation Work Plan for submittal to the Maryland Department of the Environment (MDE). The work plan will be prepared in accordance with the CAP Addendum Approval Letter, dated September 4, 2013 and the Revised CAP Addendum.

If there are any questions regarding this letter, please contact me at (301) 776-0500.

Sincerely,

**Advantage Environmental Consultants, LLC**
