**Coal Combustion Byproducts (CCB)
Annual Generator Tonnage Report**

Instructions for Calendar Year 2010

RECEIVED

FEB 28 2011

COMPLIANCE
DIVISION

The following is general information relating to the requirement for reporting quantities of coal combustion byproducts that were managed in the State of Maryland during calendar year 2010. Please answer the questions on the form provided, attaching additional information and any requested supplemental information to the back of the form. Questions can be directed to the Solid Waste Program at (410) 537-3318 or via email at edexter@mde.state.md.us.

I. Background. This requirement that generators of coal combustion byproducts (CCBs) submit an annual report was instituted in the Code of Maryland Regulations COMAR 26.04.10.08, that was promulgated effective December 1, 2008. The regulation requires that any non-residential generator of CCBs submit a report to the Department by March 1 of each year describing the manner in which CCBs generated within the State were managed during the preceding calendar year. Additional information and specific instructions follow. For more detailed information, please refer to COMAR 26.04.10.08.

II. General Information and Applicability.

A. Definitions. Coal combustion byproducts are defined in COMAR 26.04.10.02B as:

- "(3) Coal Combustion Byproducts. (a) "Coal combustion byproducts" means the residue generated by or resulting from the burning of coal.*
- (b) "Coal combustion byproducts" includes fly ash, bottom ash, boiler slag, pozzolan, and other solid residuals removed by air pollution control devices from the flue gas and combustion chambers of coal burning furnaces and boilers, including flue gas desulfurization sludge and other solid residuals recovered from flue gas by wet or dry methods. "*

A generator of CCBs is defined in COMAR 26.04.10.02B as:

- "(9) Generator.*
- (a) "Generator" means a person whose operations, activities, processes, or actions create coal combustion byproducts.*
- (b) "Generator" does not include a person who only generates coal combustion byproducts by burning coal at a private residence."*

B. Applicability. If you or your company meet the definition of a generator of CCBs as defined above, you must provide the information as required below. For the purposes of this report, "you" shall hereinafter refer to the generator defined above. Please note that COMAR 26.04.10.08 requires generators of CCBs to submit an annual report to the Department

Facility Name: Mount Saint Mary's CCB Tonnage Report – 2010

concerning the disposition of the CCBs that they generated the previous year. **THIS INCLUDES CCBs THAT WERE NOT SEPARATELY COLLECTED BUT WERE PRODUCED BY THE BURNING OF COAL AND WERE DIRECTLY CONTRIBUTED TO A PRODUCT, such as cement.** Where the amount cannot be directly measured, estimates based on the amount of coal burned can be used. The method of determining the volume of CCBs produced must be described.

III. Required Information. The following information must be provided to the Department by March 1, 2011:

A. Contact information:

Facility Name: Mount Saint Mary's University

Name of Permit Holder: SAME

Facility Address: 16300 Old Emmitsburg Road
Street

Facility Address: SAME Emmitsburg MD 21727
City State Zip

County: FREDERICK

Contact Information (Person filing report or Environmental Manager)

Facility Telephone No.: 301-447-3418 Facility Fax No.: 301-447-5867

Contact Name: Philip B. Valentine

Contact Title: DIRECTOR OF CAPITAL PROJECTS

Contact Address: SAME
Street

Contact Address: SAME
City State Zip

Contact Email: PVALENTI

Contact Telephone No.: 301-447-3418 Contact Fax No.: 301-447-5867

For questions on how to complete this form, please call Edward Dexter, Solid Waste Program at 410-537-3318.

CCB Tonnage Report - 2010

B. A description of the process that generates the coal combustion byproducts, including the type of coal or other raw material that generates the coal combustion byproducts. If the space provided is insufficient, please attach additional pages:

DISCONTINUED COAL USAGE MARCH 2009

C. The volume of coal combustion byproducts generated during calendar year 2011, including an identification of the different types of coal combustion byproducts generated and the volume of each type generated. If the space provided is insufficient, please attach additional pages in a similar format:

Table I: Volume of CCBs Generated for Calendar Year 2010:

Reporting Year	Volume of CCB Type:	Volume of CCB Type:	Volume of CCB Type:
2010	NA	NA	NA

Additional notes:

COAL BOILER - DEMO'D 2009 REPLACED
WITH NG BOILER - 2010

Facility Name: _____

CCB Tonnage Report – 2010

D. Descriptions of any modeling or risk assessments, or both, conducted relating to the coal combustion byproducts or their use, that were performed by you or your company during the reporting year. Please attach this information to the report.

E. Copies of all laboratory reports of all chemical characterizations of the coal combustion byproducts. Please attach this information to the report.

F. A description of how you disposed of or used your coal combustion byproducts in calendar year 2010, identifying:

(a) The types and volume of coal combustion byproducts disposed of or used (if different than described in Paragraph C above), the location of disposal, mine reclamation and use sites, and the type and volume of coal combustion byproducts disposed of or used at each site:

NA

and (b) The different uses by type and volume of coal combustion byproducts:

NA

If the space provided is insufficient, please attach additional pages in a similar format. (Please note that in subsequent years you need only provide the information in Section F for the last calendar year).

Facility Name: MOUNT SAINT MARYS

CCB Tonnage Report - 2010

G. A description of how you intend to dispose of or use coal combustion byproducts in the next 5 years, identifying:

(a) The types and volume of coal combustion byproducts intended to be disposed of or used, the location of intended disposal, mine reclamation and use sites, and the type and volume of coal combustion byproducts intended to be disposed of or used at each site:

DISCONTINUED

and (b) The different intended uses by type and volume of coal combustion byproducts.

NONE ON SITE!
PRU

If the space provided is insufficient, please attach additional pages in a similar format.

IV. Signature and Certification. An authorized official of the generator must sign the annual report, and certify as to the accuracy and completeness of the information contained in the annual report:

This is to certify that, to the best of my knowledge, the information contained in this report and any attached documents are true, accurate, and complete.
