Elder Ghigiarelli, Jr.
Deputy Program Administrator
Wetlands and Waterways Program/Water Management Administration
Maryland Department of the Environment
1800 Washington Boulevard, Suite 430
Baltimore, MD 21230

Dear Mr. Ghigiarelli,

Thank you for this opportunity to request that the public be considered in considering the lease of the Conowingo Dam .

Exelon needs to agree to work with the state and federal government to clean out the sediment behind this dam before it is allowed to lease it for such a long time.

This is absolutely crucial. Exelon must agree to do their share before the lease can be approved. The Susquehanna River and the Chesapeake Bay belong to the people and to the descendants of the people. No contract should be permitted without a specific plan of action.

This sediment behind the dam has been accumulating for a long time but it is a problem that can and must be solved.

Thank you,

Mildred Joyce Kim
